Education

Ph.D. in Economics, Georgia State University — Expected 2027
Dissertation: Essays on the Economics of Education
Advisors: Jonathan Smith (Chair), Tim R. Sass, Benjamin Marx, Seth Gershenson

B.A. in Economics, Dong-A University, Republic of Korea — 2022
Minor in Mathematics

Fields

Economics of Education, Labor Economics, Applied Microeconomics

Academic Experience

Graduate Research Assistant, **Georgia Policy Labs** — 2022–Present

- Conducted research–practice partnership studies with Georgia school districts
- Drafted the research design section of grant proposal writing

Research and Evaluation Fellow, **Achieve Atlanta** — 2026–Present

- Studies college credits during high school and college transitions with financial aid

Working Papers

"Sibling Spillovers of Merit-Based Scholarships." – *Job Market Paper*

"HOPE and Zell Miller Scholarships: Impacts on College Enrollment, Persistence, and Completion."
(Resubmitted after Reject & Resubmit at *Journal of Human Resources*)

"Gun Violence in School and Teacher Workforce: Impacts on Mobility, Retention, and Teacher Quality."

"Attendance Recovery Bus Pilot," with Tim R. Sass

Published Reports & Policy Briefs

Teaching Experience – Instructor of Record

ECON 4300 – Economics of Cities.

Senior-level elective, Fall 2025 (in-person), Georgia State University.

Class Size: 37; Teaching Evaluation: 4.7/5.0

ECON 2105 – Principles of Macroeconomics.

Introductory required course, Summer 2025 (asynchronous online), Georgia State University.

Class Size: 73; Teaching Evaluation: 4.6/5.0

Awards & Funding

Second Century Initiative (2CI) Fellow at Evidence-Based Policy Cluster, GSU	2022–2026
Mark and Mary Kassis Economic Excellence Award, GSU	2026
E.D. (Jack) Dunn Fellowship and Research Fund, GSU	2024, 2025
W.J. Usery Chair Research Fund, GSU	2024
W.J. Usery Chair Travel Fund, GSU	2024, 2025
Merit-Based Academic Scholarship, Dong-A University	2017–2020

Conferences & Seminars (* scheduled)

2027	AEA/ASSA Meeting*, Washington, DC
2026	Association for Public Policy Analysis & Management*, Boston, MA
	Andrew Young School Research Day*, Georgia State University, Atlanta, GA.
	Southern Economic Association*, Houston, TX
	Economics Graduate Student Conference, Washington University in St. Louis, MO
	Association for Education Finance & Policy, Chicago, IL
	Midwest Economics Association, Chicago, IL

Public Policy and Child Well-being, Atlanta, GA
GSU Graduate Conference for Research, Atlanta, GA

2025 Southern Economic Association, Tampa, FL
Association for Public Policy Analysis & Management, Seattle, WA
Strategic Data Project Convening, Harvard University, Boston, MA
Association for Education Finance & Policy, Washington, DC

2024 Association for Education Finance & Policy, Baltimore, MD

2023 Georgia Policy Labs Summit, Atlanta, GA
Association for Public Policy Analysis & Management, Atlanta, GA

2022 Korean Insurance Academic Society Winter Conference, Online

Professional Service

Referee: *Economics of Education Review, Southern Economic Journal*

Conference Ambassador: 2026 Association for Education Finance & Policy, Chicago, IL

Skills & Misc.

Programming: Stata, R, Python, and LaTeX

Languages: English (fluent), Korean (native)

Citizenship: Republic of Korea (F-1 visa; STEM OPT eligible)

CHAPTER 1: HOPE AND ZELL MILLER SCHOLARSHIPS: IMPACTS ON COLLEGE ENROLLMENT, PERSISTENCE, AND COMPLETION.

(Resubmitted after Reject & Resubmit at *Journal of Human Resources*)

This paper examines whether Georgia's HOPE and Zell Miller Scholarships affect college enrollment, persistence, and degree attainment. I link student-level administrative records from a public school district in the Metro Atlanta area to National Student Clearinghouse data and use GPA thresholds in a regression discontinuity design. HOPE eligibility increases college enrollment, persistence, and in-state degree attainment, with enrollment gains concentrated among low-income students. Zell Miller eligibility shifts students toward Georgia institutions without enrollment gains and raises STEM degree attainment. HOPE generates fiscal returns by increasing human capital among financially constrained students and improving retention of high-achieving students within the state.

CHAPTER 2: SIBLING SPILLOVERS OF MERIT-BASED SCHOLARSHIPS. ***– Job Market Paper***

I study whether an older sibling's eligibility for Georgia's HOPE and Zell Miller Scholarships affects younger siblings' college enrollment. Using administrative data from a Metro Atlanta school district and regression discontinuity designs at each GPA threshold, I find that an older sibling's HOPE eligibility raises younger siblings' enrollment by 4.6 percentage points overall and by 16 percentage points in low-income households, with large gains at four-year colleges. Zell Miller eligibility, by contrast, leaves overall enrollment unchanged and shifts younger siblings toward part-time enrollment. Accounting for sibling spillovers roughly doubles the social return to HOPE relative to estimates based on recipients alone.

CHAPTER 3: GUN VIOLENCE IN SCHOOL AND TEACHER WORKFORCE: IMPACTS ON MOBILITY, RETENTION, AND TEACHER QUALITY.

How do school shootings affect teacher retention and mobility? Using 28 years of North Carolina teacher employment records and school shooting data from the Center for Homeland Defense and Security, I exploit within-teacher variation and compare teachers at exposed schools with teachers at matched unexposed schools. Teachers are 4 percentage points more likely to leave the profession following a shooting. Mobility rises two years afterward and remains elevated for up to seven years. The negative retention is concentrated in shootings involving deaths or injuries and is larger for high value-added teachers and for math and science teachers. School shootings impose persistent costs on the teacher workforce, and school safety may matter for addressing teacher shortages.
